19. (C) Every pilgrim ship shall carry a disinfecting store approved by the Health Officer of the port in British India at which the voyage is to commence.

(D) Articles of bedding, carpets and clothes used by persons who have been affected with cholera, as well as by persons who have had access to such persons, shall be immediately disinfected. Such of these articles as have little or no value shall be thrown into the sea, or, if the ship is in a port or canal, be destroyed by fire. All such articles as are not destroyed shall be carried to the disinfecting store in impermeable bags sprinkled with a solution of corrosive sublimate.

(E) The rooms of the sick shall be covered in vessels containing a disinfecting solution and the latrine in which these vessels are emptied shall be thoroughly disinfected after each operation.

(F) Articles which have come into contact with persons suffering from cholera shall be thoroughly disinfected in the following manner:—

(a) Articles so contaminated or suspected of being so contaminated shall, unless they are liable to be destroyed by exposure to heat, be disinfected in the disinfecting store under pressure, the store being maintained at a temperature (to be tested during each operation) of 212° Fahr. and the articles exposed to this temperature for 15 minutes.

(b) Articles liable to be destroyed by exposure to the heat of a disinfecting store, such as carpets, leather, tables, lockers, etc., shall be disinfected by being washed with disinfecting solution.\*

(G) Ships on which cases of cholera have occurred shall be disinfected in the following manner:—

(a) The cabin and all parts of the ship occupied by cholera patients or those exposed to be suffering from cholera shall be emptied, and all articles removed disinfected as above.

(b) The interior sides, bulkheads, floors and decks of the ship shall be washed with the corrosive sublimate solution with the addition of 10 per cent. of alcohol (i.e., one gallon of methylated alcohol to every 10 gallons of the corrosive sublimate solution), and two hours after washing, scrubbed, and then thoroughly washed down with plenty of water.

(c) The hold of the ship shall be steamed from time to time with a sufficient quantity of iron sulphate to combine the sulphuretted hydrogen, and the water in the hold shall then, unless the ship is in dock, be pumped out and the hold washed with sea-water and sprinkled with the corrosive sublimate solution.

20. Pilgrims shall air their clothing, blankets, etc., as often as required to do so by the medical officer.

21. The following articles and appliances shall be supplied on the scale shown below:—

\* One of the following disinfecting solutions shall be used:—

(a) Corrosive sublimate in the following proportions:—

Corrosive sublimate, 4 oz.  
Hydrochloric acid, 1 oz.  
Water, 5 gallons.  
Trichloro or bleach, 2 quarts.

(b) Pure phenol acid, five parts in 100 parts of water.

(c) Fresh chlorinated lime.

The following disinfecting solutions are useful for the following purposes:—

(a) Limes, chlorine and articles used by the victims of cholera patients should be put into the corrosive sublimate solution.

(b) Persons in attendance on the sick should use the corrosive sublimate solution, when washing themselves, in the proportion of one part of the solution to 10,000 parts of water.

(c) Phenol acid should be used to disinfect articles which cannot be exposed to the temperature of 212° Fahr. as to contact with patients' solutions, such as carpets, blankets, etc.

(d) Bleach lime is specially useful to destroy the germs of cholera patients in the absence of chlorinated lime. It will destroy the same germs. When chlorinated lime is used for disinfecting liquids, it should be used in the proportion of three lbs. of lime to two gallons of the liquid to be disinfected.

\* For the purpose of disinfecting skins and animal skins, one ounce of sulphur should be burnt for every 20 cubic feet of the space to be disinfected, the skins or other goods being completely dried during the operation and kept in dry boxes.

Under section 514 of the Code of Criminal Procedure, the Governor in Council, with the previous sanction of the Governor General in Council, is pleased to make the following revised rules for regulating the payment, on the part of Government, of the expenses of witnesses (including complainants) attending the criminal cases in the City of Madrid:—

1. Subject to the provisions hereinafter contained, the expenses of witnesses will be paid on behalf of Government in the following classes of cases, viz:—

- (a) Cases shown in the second schedule of the Code of Criminal Procedure as notailable.
- (b) Cases in which the prosecution is instituted or carried on under the orders or with the sanction of the Governor in Council or of any public servant acting as such.
- (c) Where the witness in question has been compelled to attend by a process issued under section 516 of the Code.
- (d) Cases in which the court certifies that the attendance of such witness was directly in furtherance of the interests of public justice.
2. (1) For the purposes of these rules, Europeans, Spaniards and Native shall be divided into three classes, and the Magistrate before whom they are required to appear, or the Commissioner of Police, or, in the case of witnesses from the mainland, the Magistrate of the district from which they came shall fix the class with due regard to the status in life of each individual.
- (2) For the purposes of this rule, the Magistrate of the district may delegate his powers to any Subordinate Magistrate.

3. The following are the maximum rates which may be awarded to the several classes of witnesses, and no expenses in excess of, or other than, those here provided for shall be allowed:—

Witness.	Class.	Subsistence allowance.	Furlough or allowance for days of actual attendance.	Travelling expenses, if any, incurred.		
				By rail.	By road.	By water or rail.
European and Europeanized.	1st class.	3 rupees per day.	3 rupees per day.	1st class fare.	8 rupees per mile.	Actual expenses of passage.
	2nd "	2 "	2 "	2nd "	4 "	
	3rd "	1 1/2 "	1 rupee "	3rd "	2 "	
Native.	1st "	2 "	2 rupees "	1st "	8 "	
	2nd "	1 rupee "	1 rupee "	2nd "	4 "	
	3rd "	6 annas "	6 annas "	3rd "	2 "	

4. All disbursements under these rules shall be made by the Commissioner of Police, to whom witnesses, passing from the railway should report themselves on arrival at Madras.

5. Witnesses resident in the Presidency town will be entitled only to such actual expenses as they may show to the satisfaction of the Commissioner of Police that they have been obliged to incur in obedience to the process or order of the court.

6. Witnesses sent from the mainland will be furnished with a certificate by the despatching Magistrate showing the class to which they belong, the date of their departure, and the current distances (if any) to be travelled by road; and unless such certificate is produced before the Commissioner of Police, that officer may disallow all or any of the expenses claimed.

7. National Magistrates may make reasonable advances to witnesses summoned by the High Court or Presidency Magistrate and requiring such advances to enable them to reach Madras, but shall in every case give up the same on the certificate referred to in rule 6. The Commissioner of Police should also be advised of such advances, and he will refund the amount to the officer making the advance.

8. Whenever it is practicable for witnesses to travel by rail or steamer, they shall be allowed as much as the rates provided for these modes of transport.

9. Subsistence allowances may be paid for the days occupied in travelling to Madras as well as in the return journey. The subsistence allowance at Madras will cease as soon after the conclusion of the inquiry or trial as the means of getting the town become available.

10. The expenses of witnesses will be paid on production of a certificate signed by the presiding Magistrate, or in the case of the High Court, by the Clerk of the Court setting forth the inquiry or trial in which their attendance was required and the days on which they attended.

11. It shall be competent to the court before which a witness appears to disallow payment of any expenses on behalf of Government, if for any cause such court thinks fit to do so.

12. The Commissioner of Police will disallow the whole or part of the expenses of any witness for the defence whose evidence may not seem to him to have been material, unless he is satisfied that such witness has been brought down to Madras against his will and that no compensation for his expenses has been paid or deposited by the defendant. This power does not extend to the case of a witness who has been summoned and attended by the Court or Magistrate to have been material.

13. In applying the foregoing rules to public servants to whom the Civil Service Regulations are applicable the following additional rules shall be observed:—

(1) When a public servant appears in any case under rule 1 to give evidence in his official capacity, that is, evidence of facts within his knowledge as an official, no payment shall be made to him, but the court will give him a certificate setting forth that he appeared to give evidence of what had come to his knowledge, or of matters with which he had to deal, in his official capacity, the dates on which he appeared, and the period for which he was detained, so as to enable him to draw travelling allowance and leave under section 1135 of the Civil Service Regulations.

(2) When a public servant appears in his official capacity as a witness in a case which does not come under rule 1 (sup.) is a case in which section 234 (2) or 237, Code of Criminal Procedure, is applied, or when a public servant appears to give evidence in any case as a private person, travelling allowance and leave may be paid to him in the ordinary manner, but the court shall send an advice of all such payments made to him to the head of the office in which he is employed. In this advice the amount paid as leave and the period during which the attendance of the witness is most necessary shall be noted.

(3) When an official of the Court of Wards appears in his official capacity as a witness in a case connected with an estate under the superintendence of the Court of Wards, the Judge or Magistrate before whom the trial takes place will furnish such official with a certificate showing the days on which he attended to give evidence and the amount of leave and travelling allowance paid to him on that account.

(4) When a public servant whose establishment are governed by the Army Regulations, India, appears in any case under rule 1 to give evidence in his official capacity, he shall be paid the travelling allowance and leave admissible under these rules, and shall be furnished with a certificate showing in detail the amount paid. If the amount paid is less than the amount admissible to him under the military rules to which he is subject, the difference will be paid to him by the military authorities on production of the certificate.

14. Medical establishments in Local Yard or Municipal Hospital (including Government servants sent to, and paid by, local bodies) when attending court to give evidence in their public capacity shall be paid the same rates of travelling allowance and leave as would be admissible to Government servants of similar grades under the Civil Service Regulations.

15. Subjects of the French Government who are in the official capacity of the Government or the French Consulate in India appearing as witnesses in law criminal courts in Madras City may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in this case. Magistrates are required to refer any claim under this rule for scrutiny to the Collector of South Arcot who is the Special Political Agent for the French Dependencies in India.

26. Officials of the Government of Ceylon, appearing as witnesses before courts in Madras City may, if such claim be made, be paid their expenses at the rates to which they are entitled under the Regulations of their own Government in like cases. The claim should be submitted through the hand of the department to which the official belongs.

No. 266—

RULES FOR THE PAYMENT OF THE EXPENSES OF COMPLAINANTS AND WITNESSES ATTENDING METROPOLITAN CRIMINAL COURTS IN THE MADRAS PRESIDENCY.

Under section 344 of the Code of Criminal Procedure, the Governor in Council, with the previous sanction of the Governor General in Council, it pleased to make the following revised rules for regulating the payment, on the part of Government, of the expenses of witnesses (including complainants) attending criminal courts in the Madras Presidency other than those of the City of Madras:—

1. The criminal courts are authorized to pay, at the rates specified in rule 3, the expenses of complainants and witnesses in cases in which the prosecution is instituted or carried on by, or under the orders, or with the sanction of the Government, or of any Judge, Magistrate, or other public officer, or when it shall appear to the Judge or Magistrate presiding over such court to be directly in furtherance of the interests of public justice; also in cases entered in column 4 of schedule II appended to the Code of Criminal Procedure as not bailable; and in all cases in which the witnesses are compelled to attend by a Magistrate under the provisions of chapter XLVI of the Code.

2. (1) For the purpose of these rules witnesses are divided into two classes, namely, of officials and non-officials. Official witnesses, that is to say, public servants to whom the Civil Service Regulations are applicable summoned to give evidence as officials, are entitled to receive for their journey to and from the court and for the days spent by them in attendance at the court to give evidence in cases coming under rule 3 travelling allowances at the rates prescribed by the Civil Service Regulations for the time being in force. The court shall not, however, make any payment to official witnesses in such cases, but shall grant them certificates setting forth that they appeared to give evidence of what had come to their knowledge, or of matters with which they had to deal, in their official capacity, the date on which they appeared and the period of which they were detained, so as to enable them to draw travelling allowances and batta under article 1135 of the Civil Service Regulations.

(2) When a public servant appears in his official capacity as a witness in other cases (e.g., in cases in which section 244 (3) or 257, Code of Criminal Procedure, is applied), or when a public servant appears to give evidence in any case as a private person, travelling allowances and batta may be paid to him on the ordinary manner, but the court shall send an advice of all such payments made to him to the head of the office in which he is employed. In this advice the amount paid as batta and the period during which the attendance at the witness in court was necessary shall be stated.

(3) When an official of the Court of Wards appears in his official capacity as a witness in a case connected with an estate under the superintendence of the Court of Wards, the Judge or Magistrate before whom the trial takes place will furnish such official with a certificate showing the days on which he attended to give evidence and the amount of batta and travelling allowances paid to him on that account.

(4) When a public servant whose emoluments are governed by the Army Regulations, India, appears in any case under rule 3 to give evidence in his official capacity, he shall be paid the travelling allowance and batta admissible under these rules, and shall be furnished with a certificate showing the dates the amount paid. If the amount paid is less than the amount admissible under the military rules to which he is subject, the difference will be paid to him by the military authorities as production of the certificate.

3. Hired subalterns in Local Force or Municipal supply (including Government servants lent to, and paid by, local bodies) when attending court to give evidence in their public capacity shall be paid the same rates as travelling allowances and batta as would be admissible to Government servants of similar grades under the Civil Service Regulations.

4. Non-official witnesses are entitled to travelling allowances under two different scales as shown below according as they are (1) Europeans or East Indians, or (2) Natives, Females falling under either of these descriptions may, for the purposes of these rules, be divided into three classes; and the Judge or Magistrate before whom they are required to appear either as complainants or as witnesses shall be careful to fix the class with due regard to the station in life which they occupy:—

	Europeans and East Indians.			Natives		
	First class.	Second class.	Third class.	First class.	Second class.	Third class.
Travelling allowance.						
By rail	First class fare.	Second class fare.	Third class fare.	First class fare.	Second class fare.	Third class fare.
By road	Rs. 4 per mile.	Rs. 3 per mile.	Rs. 2 per mile.	Rs. 4 per mile.	Rs. 3 per mile.	Rs. 2 per mile.
By sea or canal	Actual expense of passage.			Actual expense of passage.		
Batta not to exceed	Rs. 3 per diem.	Rs. 1 per diem.	Rs. 2 per diem.	Rs. 1 per diem.	Rs. 3 per diem.	Rs. 4 per diem.

5. In cases within rule 3 the Commissioner of Police may make reasonable advances to witnesses resident in the City of Madras who are summoned by a criminal court in the metropolis, and who require the advances to enable them to reach the court. The court making the summons, on being advised by the Commissioner of Police of the advances made, will refund the amount to him.

8. The distance for which mileage and the number of days for which hotel should be allowed for the journey to and from the station at which the work is and held for attendance at court shall be determined by the Judge or Magistrate ordering the presence in such case.

9. All bills for travelling allowances and hotel to complainants and witnesses attending before the courts of Magistrates of the second and third class shall be sanctioned by the Magistrate of the division in which such courts are situated before the charges included in them are finally passed.

10. Whenever a Magistrate disposes a case on a petition or summons under section 240 of the Code of Criminal Procedure, no travelling allowance or hotel shall be granted to the complainant in such case.

11. The Criminal courts are authorized to pay the necessary and actual expenses of carriage to a witness travelling by road, in the case of persons whose sickness, age, position, or habits of life render it impossible for them to walk, provided the expense incurred under this rule shall be not more than Rs. 5 a mile.

12. To Natives and Europeans graded in the first class of non-officials, there may also be allowed the actual cost of carriage hire to and from Court on the days of attendance at court.

13. Subjects of the French Government who are in the official employ of that Government in the French Dependencies in India appearing as witnesses before criminal courts in the Madras Presidency may, if such claim be made, be paid their expenses at the rates in which they are entitled under the Regulations of their own Government in this case. Magistrates are required to refer any doubtful claim for sanction to the Collector of South Arcot who is the Special Political Agent for the French Dependencies in India.

14. Officials of the Government of Ceylon appearing as witnesses before criminal courts in the Madras Presidency may, if such claim be made, be paid their expenses at the rates in which they are entitled under the Regulations of their own Government in this case. The claim should be submitted through the head of the department to which the official belongs.

### GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations under the provisions of the Indian Councils Act, 1902 to 1903 (C.A. & 25 Vict., C. 67, 55 & 56 Vict., C. 14, and 5 Edw. VII, C. 4).

The Council met at Government Lodge, Delhi, on Friday, the 24 August 1910.

#### PRESENT:

The Hon'ble Mr. J. L. Sargent, C.S.I., *Pro-President, presiding*, and 31 Members, of whom 12 were additional Members.

The Hon'ble Mr. Sargent:—"I much regret to announce that His Excellency the Viceroy is unfortunately ill and will not be able to preside at this meeting. We will, therefore, take the precautionary measure which is on the paper, on the 10th, and adjourn till tomorrow morning 11 o'clock, when His Excellency hopes to be able to attend."

"The Hon'ble Mr. Sargent will be delegated to take the non-constitutional business on the agenda paper which stands in my name."

#### QUESTIONS AND ANSWERS.

The Hon'ble Sargent:—"The Hon'ble Mr. Sargent."

"(a) Will the Government be pleased to lay on the table a complete return of the books, newspapers and other publications ordered to be forfeited by the Imperial and the various Provincial Governments under Act I of 1910 (the Press Act) since the enactment of that measure in February 1910?"

"(b) Will the Government be pleased to explain the disparity of treatment accorded to the press and newspapers in the various provinces of the Empire in the matter of depositing security while changing printers or offices?"

"(a) Will the Government be pleased to state whether it would be prepared, before asking for security in respect of any publication or otherwise in forfeiture, to furnish the editor, publisher or author of such publications with the passages or chapters where forfeiture is by the Government? And will the Government be pleased to state whether on such passages or chapters being taken out from subsequent editions of such publications the notice of forfeiture will be withdrawn in respect of such editions?"

"(b) If the Government is not disposed to issue notices as suggested in the preceding question, will the Government be pleased to direct that whenever any newspaper, book or other document is declared to be forfeited to His Majesty under section 12 of the Press Act, the words or effects, passages or passages, considered objectionable, be stated in the order of forfeiture?"

"(c) Will the Government be pleased to issue instructions to Local Governments to the effect that it is not intended under the Indian Press Act (1 of 1910) to demand security from the keepers of the printing presses or publishers of existing newspapers, even if any fresh declaration is made under the Press and Registration of Books Act, unless they offend by printing or publishing matter which is objectionable under section 4 of the Indian Press Act?"

The Hon'ble Mr. KERR replied:—

"(a) A return of newspapers, books and other documents of which the forfeiture has been ordered by Local Governments under section 12 of the Press Act is laid \* on the table. No orders are issued under that section by the Imperial Government.

"(b) The Hon'ble Member has doubtless seen the resolution recently issued by the Government of Bombay, which contained the orders of the Government of India in regard to the treatment to be accorded to all presses and newspapers. It is true that before those orders were issued security had been demanded from certain keepers of presses and publications in which the principles upon which exemption may be granted properly applied. On receipt of the orders the matter was rectified, and the Government of India have every reason to believe that the principles enunciated by them have received all likelihood of dignity of treatment in future.

"(c) The object of the Act being not punitive but preventive, the Government of India have already advised Local Governments to issue warnings to offending newspapers or persons rather than to seek to issue an order demanding security, when it is believed that such warnings will be effective. They do not propose to prescribe to Local Governments the form in which warnings shall be conveyed, but it may be inferred that in order to render such warnings effective, the offending passages or articles are usually indicated. If the latter part of the Hon'ble Member's question refers to publications of which the forfeiture has been ordered under section 12, I would point out that orders under that section refer only to the individual editions specified in the notification, and that if subsequent editions were published containing no matter of the nature described in section 4 (1) of the Act, those editions would of course not be liable to forfeiture.

"(d) The Hon'ble Member will observe that in cases of forfeiture under section 12 (1) of the Act, the law requires the Local Government merely to state in the notification the grounds of its opinion upon which the declaration of forfeiture is based. On the other hand, in orders of forfeiture passed under sections 4, 5 and 9, the Local Government is required by law to state or describe the words, signs, or visible representations which, being of the nature described in section 4 (1), render security demanded by a keeper of a printing press or by a publisher liable to forfeiture. The difference in procedure was permitted adversely, and the Government of India are not prepared to request Local Governments to go beyond the requirements of the law.

"(e) The Government of India have already advised Local Governments that when fresh declarations are made, security should not be demanded from the keepers of existing newspapers which are well conducted. As has already been observed, the object of the Act is to prevent and to punish offences, and not good conduct, and the likelihood of future good conduct may legitimately be required as evidence of strength. The Government of India are not, therefore, prepared to rule that in such cases security should only be demanded when the offence of publishing matter of the nature described in section 4 (1) has actually been committed."

The Hon'ble Mr. BERNARDINUS MAYE then asked:—

"(a) Will the Government be pleased to make a statement regarding the present political condition in the provinces of Eastern Bengal and Assam?"

"(b) Will the Government be pleased to state why, in spite of assurances given by their promoters regarding the collection of such one and another, the conferences that were proposed to be held at Faridpur, Barisal and Mymensingh in April last were prohibited under orders of the Government of Eastern Bengal and Assam? Is the Government aware that as a matter of fact guarantees were offered in the districts of Faridpur and Mymensingh?"

"(c) Is the Government aware of the great dissatisfaction caused throughout the country by the suppression of these conferences?"

The Hon'ble Mr. KERR replied:—

"(a) Government do not consider that it is necessary or desirable to make any statement as regards the present political condition in the provinces of Eastern Bengal and Assam.

"(b) The Lieutenant-Governor of Eastern Bengal and Assam explained clearly at a meeting of his Council held on the 10th April 1916, that it was owing to the fact that satisfactory assurances were not given by the promoters of the proposed conference in the districts of Faridpur, Barisal and Mymensingh were prohibited. The action taken by the Government of Eastern Bengal and Assam had the qualified approval of the Government of India, as it appeared that the conferences were not intended for the discussion of legitimate local topics, but were part of a concerted scheme to inflame feelings of dissatisfaction and lawlessness and to revive agitation. As regards the last part of the question, the reply is that the guarantees were by no means considered satisfactory.

"(c) The Government are not aware that great dissatisfaction has been caused throughout the country by the suppression of these conferences, though, no doubt, the action taken was the more disappointing to the promoters and their friends."

The Hon'ble BARRISTER-AT-LAW asked:—

"Will the Government be pleased to lay on the table a motion showing the instances in which the Prevention of Sedition Meetings Act, 1906, has been put into operation since November 1907?"

The Hon'ble MR. RAZAR replied:—

"A return<sup>1</sup> showing the instances in which the different provisions of the Prevention of Sedition Meetings Act has been put into operation is laid on the table."

The Hon'ble BARRISTER-AT-LAW asked:—

"Will the Government be pleased to inquire if in trials under Act XIV of 1908 (as yet passed in principle for the next session and certain officers) an inordinate delay does not often take place in the preliminary inquiry by the Magistrate, and will the Government be pleased to issue directions to expedite the inquiry stage of such cases?"

The Hon'ble MR. RAZAR replied:—

"The Government have no reason to believe that any inordinate delay occurs in the preliminary inquiry by the Magistrate in cases to which the procedure of Act XIV of 1908 has been applied. They feel that in all such cases which have been committed to the Special Bench of a High Court up to date, with few exceptions, the average duration of the proceedings from the date of the order under section 3 (1) of the Act to the date of commencement has been slightly less than 15 months. The two exceptions referred to are the Kishor and the Howrah-Singur conspiracy cases which occupied a period of about 4 and 5 months respectively prior to commencement, owing to the very large number of witnesses whom it was necessary to examine."

"The Government have no reason to think that any undue delay is not made to expedite the inquiry stage of these cases so that it is necessary to issue special directions in the matter."

The Hon'ble BARRISTER-AT-LAW asked:— "May I be permitted to put a supplementary question to the one that has just now been answered? In regard to the Howrah case, may I enquire if certain persons charged with the offence were not discharged by the Magistrate after inquiry lasting for four and half months, during which period these unfortunate persons were not released on bail?"

The Hon'ble MR. RAZAR: "Mr. President, I sincerely think that that question arises out of the previous question which has been put by the Hon'ble Member. But, if he wishes that question to be answered, I must ask for notice."

The Vice-President: "I think that there should be notice about that question."

The Hon'ble BARRISTER-AT-LAW asked: "As you think, Sir."

The Hon'ble BARRISTER-AT-LAW asked:—

"Is the Government aware that robberies and outrages are taking place in running trains, particularly in the women compartments? Will the Government be pleased to adopt measures calculated to ensure a feeling of safety amongst all, specially the female passengers, and to prevent a recurrence of such offences?"

The Hon'ble MR. T. R. WYNNES replied:—

"The question of preventing robberies and outrages in running trains is one that has for some time past been the subject of the Railway Board's most careful attention."

"Two years ago the whole subject was carefully gone into at a conference at which all Indian Railways were represented, and as the result of careful consideration and in light of the many suggestions that had been made by the Press and in letters to the Railway Board, certain precautionary measures were adopted."

"The measures that were taken to prevent outrages and robberies are fully detailed on page 19 of the Railway Board's Administration Report for the year 1906."

"The difficulty is to devise measures which will entirely prevent all thefts and outrages occurring in running trains, and this is a problem which no society in the world has yet solved, robberies and outrages occurring on railways at every country from time to time. In England, in last March, a railway clerk named Stabel was robbed and murdered in a train near Margate station on the North-Eastern Railway, and if foreign newspapers are read instances of train outrages will be found frequently recorded. As indicating the difficulty of solving the problem and the different views held as to the measures to be taken I will now quote a letter written by an Indian official gentleman to the East Indian Railway."

"In this letter he argues strongly against measures being fitted with the means of stopping trains when running, and the removal of passengers from trains, but being measures the general public most strongly urged as being of the highest productive power and which have both been introduced."

"His remedy for the protection of females is that care to the female compartments in every train there should be another compartment in which two guardians of the female passengers should be able to travel, there being communication between this compartment and the one for the use of females. This arrangement might run when females were accompanied by their male relatives, but when travelling alone the means of communication between the two compartments would simply be in the direction of sending a criminal to give access to the female compartment."

"The difficulty of the problem to be solved, and the conflicting proposals made to deal with it have been indicated to show that while the Railway Board are fully alive and are most anxious to do everything to prevent outrages, it is a question that does not easily lend itself to solution and the experience of other countries which also have not been able to solve the problem is of no assistance."

"The effect of the measures that have been introduced has certainly been to reduce the number of such cases, and the public may feel assured that the Railway Board will continue to press for further additional measures that may hold out hopes of leading to still further reduce the possibility of such occurrences."

enriched by law in British India are hatred and contempt. The pamphlet contains for the most part of extracts from judicial and departmental pronouncements on selected cases of police oppression or abuse, interspersed with summaries by the compiler of the pamphlet, covering the impression that such abuses were common to the whole police-force and were condoned at by the Government of India and its responsible officers. The objectionable matter is contained both in those sentences and in the manner in which the extracts were presented to the public."

The Hon'ble Mr. GOSWAMI asked:—

"Have the Government noticed the case of a new paper in Urdu called the *Flag of Liberty*, started at Hyderabad, in which it is reported that the Deputy Commissioner declined to accept security in Government Provisory Notes? Will the Government state if it is in the discretion of any Magistrate to accept or not accept Government Provisory Notes when tendered as security?"

The Hon'ble Mr. RAMAIAH replied:—

"The incident referred to is connected with the *Flag of Liberty* has not been brought to the notice of the Government. The answer to the latter part of the question will be found in sections 3 and 4 of the Press Act, which provide that security may be tendered either in money or the equivalent thereof in securities of the Government of India."

The Hon'ble Mr. GOSWAMI: "Will the Hon'ble Member state with whom the decision rests in the matter—with the person who tenders the security or with the Magistrate who accepts the security?"

The Hon'ble Mr. RAMAIAH: "I understand that the decision rests with the person who tenders."

The Hon'ble Mr. GOSWAMI asked:—

"(a) Is the Government aware that a number of British Indians, subjects of His Majesty, many of them Colonial born, have been forcibly deported to India by the Transvaal authorities with the assistance of the Government of a foreign country?"

"(b) Will the Government be pleased to state what action, if any, has been taken in the matter?"

The Hon'ble Mr. RAMAIAH replied:—

"The Government of India are aware that a number of British Indians, subjects of His Majesty, certain of whom claim to have been born in South Africa, have lately been deported to India. These persons have been removed from the Transvaal under the provisions of section 7 of the *Asiatic Registration Amendment Act of 1914*, for failing to produce certificates of registration, and on their arrival in Portuguese territory they have been compelled to leave for India under a local bye-law of the Portuguese Administration."

"The Government of India have made representations to His Majesty's Secretary of State on the subject of these deportations, and the matter is still under consideration."

The Hon'ble Mr. GOSWAMI: "Have the Government inquired into the conditions in which the deportees arrived in India and into the charges which have been made of their ill-treatment on board ship?"

The Hon'ble Mr. RAMAIAH: "Yes, Sir, such inquiries have been made both at Bombay and Madras from the returned Indians. The inquiries were made because of allegations that in both treatment and supplies food, more particularly on board ship. Though we should not minimise the inconveniences and hardships to which the returned Indians have been put by their summary deportation from South Africa, it must be stated that the reports which we have received do not generally bear out the allegations to which I have alluded. The general tenor of the reports has been that the deported Indians suffered glances in the experience which they had passed through and were prepared to make light of the inconveniences to which they had been put. For the information of the Hon'ble Member I shall briefly mention the gist of some of the reports we have received."

The Commissioner of Police, Bombay, reported regarding the first batch of deported Indians who reached Bombay in May, with regard to whose treatment most complaint was made, that the men were cheerful and showed little signs of having suffered hardships. They did not appear sorry about their families left behind in South Africa. It is true that most of them had no money on arrival in India and had to be assisted with funds collected locally, but the one desire they expressed was to return to South Africa to continue the struggle."

A further report has been received about a batch of released Indians who reached Bombay on the 11th July by the S.S. *President*. They said they had been conveyed by rail second class to Coimbatore. Mysore and had been well treated and fed on the railway and at Deolgaon Road, but they complained against the food and accommodation on board ship. They had no reports of ill-treatment or undue and against the food and healthy looking."

"Of the batch which arrived in Madras early in June of 1915 and 1916, the President of the Emigrants' Madras, was able to record the statements of only four persons, as the remainder had gone to various places in the Madras Presidency. The President of Emigrants reported that they were all respectably attired in European style and that their appearance evidenced anything but a miserable condition or bad treatment on the voyage to India."

The Hon'ble Mr. GOSWAMI asked:—

"Will the Government state what is the total amount that has been spent up to now out of current revenue on railway construction in British India?"

The Hon'ble Mr. GUN FARRERSON WILKES replied:—

"As regards the construction of railways (mainly protective and strategic lines) which has been specifically charged to revenue, the Hon'ble gentleman will find the latest information at page 247 of the *Finance and Revenue Accounts for 1906-07*. The expenditure on the account up to 31st March 1910 was approximately £14½ millions."

"The funds for the capital expenditure on railway railways, however, are drawn from our cash balances, and covered by considerable amounts the same which are raised by loan for railway construction. But it is not possible to say with precision to what extent the current revenues have contributed to these funds in the past. The amounts from which the capital expenditure is defrayed were not collected until the year 1895-96. From that year onward, however, the contributions derived by the Hon'ble Member is available, and he will find it in full detail at page 245 of the Finance and Revenue Accounts for 1898-99."

The Hon'ble Mr. HARRIS asked:—

"Will the Government be pleased to state if the examination of my proposals on the subject of elementary education, which was promised last March, has been concluded? As the Government is in a position to state what steps are in contemplation to provide for a large extension of elementary education in the country?"

The Hon'ble Mr. EAMES replied:—

"The examination of the proposals regarding elementary education referred to in the Hon'ble Member's question has been undertaken, but is not yet concluded; the Government of India are therefore not yet in a position to make a pronouncement upon the subject."

The Hon'ble Mr. GUNDELL asked:—

"Will the Government be pleased to state what form the proposed inquiry into the growth of expenditures, foreshadowed by the Hon'ble the Finance Member in his speech on the Budget last March, will take, and when it will begin?"

The Hon'ble Mr. GUY FLETCHER WILKINSON replied:—

"The Hon'ble Member presumably refers to the remarks made in my speech, of 26th March last regarding the necessity for actually watching the growth of Civil Expenditure and considering the direction in which economy is possible. The committee which I then foreshadowed of the financial position and outlook has already been undertaken in the Finance Department and is making steady progress."

The Hon'ble FAKIR MADAN MOHAN MALAVIA asked:—

"Will the Government be pleased to lay a statement on the table showing in what districts and under what circumstances the Prevention of Seditious Meetings Act of 1907 has been enforced since it was passed?"

The Hon'ble Mr. EAMES replied:—

"All the information asked for by the Hon'ble Member will be found in the return\* which is being laid on the table in response to a request made by the Hon'ble Babu Bhupendra Nath Sanyal, with the exception of the circumstances in which the Budgeh District in Eastern Bengal and Assam, and the Behak District in the Punjab were proclaimed in November 1907 and June 1916, respectively. As regards the former the reason for the action taken was the general turbulence of the district at that period. The Behak District was proclaimed because meetings were being organised in which subjects likely to cause disturbance and public discontent were to be discussed."

The Hon'ble FAKIR MADAN MOHAN MALAVIA: "Will the Government be pleased to state the nature of the subjects that were likely to be discussed, whether they were those bearing on politics or religion or social reform?"

The Hon'ble Mr. EAMES: "I think that the subjects were all of these which the Hon'ble Member has referred to: they were social, political, and religious; that is what I can remember from the papers."

#### CANTONMENTS BILL.

His Excellency THE COMMISSIONER-IN-CHIEF presented the Report of the Select Committee on the Bill further to amend the Cantonments Act, 1895.

His Excellency THE COMMISSIONER-IN-CHIEF moved that the Report of the Select Committee be taken into consideration.

The Hon'ble GOVERNMENT MEMBER UMAR HYAT KHAN said:—The present Bill is consolidative and amends the law relating to cantonments which is now before the Council is undoubtedly a very useful measure, but certain amendments in it might have been needed. I wanted to propose some which were to the effect:—

"Firstly, section 11 is to include religious and other members of a soldier's family in order to give them a wider scope. Secondly, section 12 (2) to empower the police officer to seize and detain any suspicious liquor or intoxicating drug within the cantonment in the case of a second offender as well as a first. This is necessary because by the time the officer gets written permission from the Magistrate to seize the charge. Thirdly, section 14 (17) to make a distinction between the Magistrate's power to bring up to private individuals and those belonging to the Government. Fourthly, section 14 (18) is so structured for the time being in force for such offences. Fifthly, section 14 (30) to suggest an inquiry and the assignment of ranges in case the commanding officer deems the exclusion of any person from the cantonment expedient. Sixthly, section 14 (36) to include the registration of marriages with the registration of births and deaths as some people are sometimes as or shelter in cantonment to disagree with the provisions of the law, and to suggest that the order should be final and not with prospective effect. I may also have said something about taxes."

"But as it is not the custom to propose amendments in consolidating Bills, I did not press them. I had written all the answers to objections in some of the manuscripts sent to Hon'ble Members, but as they are not before the Council, I do not take them over."

"I think that the Bill, as it stands, is a mild one knowing the affairs and the views of people who bring forward and submit amendments and with whom the Government authorities have to deal."

"With these remarks I beg to support the Bill."

The Hon'ble Eminent MAMBA NUNAN MALAVITA said:— "I should like to say a few words. First before the Bill is passed. I understand, now that the Charterment Act, have been consolidated, that there would be a question whether the Charterment Code should not be revised and whether the rules which the Act empowers the Government General in Council to make under the Act will not have to be formally reformed. I hope that this will be done, and I hope that the opportunity will be taken to consider some of the complaints which have been made from time to time with regard to the rules made under the existing Act. I hope both His Excellency the Commander-in-Chief and the Government of India will consider the desirability of making some distinction between native and Indian troops, as they are now generally called, and regimental quarters proper, where the troops reside. In the native houses a large number of Indians have taken up their abode, have invested much money in property and are carrying on trade or pursuing their professions. When the stringent rules of the charterment are applied to these Indian houses in the matter of the regulation of persons who are regarded as 'undesirables' and of persons whose exclusion from the charterment area the Commanding Officer considers to be desirable, it gives rise to serious complaints of injustice and hardship. There have been cases published in the papers in which complaint has been made that the regulations have been unjust. I do not wish to go into these cases at present, but I beg His Excellency the Commander-in-Chief and the Government to consider whether it is not desirable, in the case of persons who reside, not in the regimental quarters proper, but in the Indian houses, to make some better provision to provide against cases of injustice in action taken under sections 210 and 211 of the Charterment Code. In the matter of houses also, there is a complaint that they are too many and in some places too heavy. And it is urged that it is better to give the troops an opportunity to have their interests and views presented to the military authorities with regard to the nature and rate of the taxes, and generally with regard to the administration of the rules and regulations which affect them, they should be given the right of electing a few of their representatives as the Charterment Committee. This privilege has been extended to Indian residents in some of the charterments. It would provide an effective remedy against any such complaints as these of the charterments. I hope these matters will receive consideration. I hope also that when the Code is being revised the public will be given an opportunity to offer suggestions for the consideration of the military authorities and the Government. With these remarks I beg to support the motion that has been made."

The Hon'ble Mr. MAMBA: "Mr. President, I desire very fully and very respectfully to submit for consideration to His Excellency the Commander-in-Chief and the Law Member the question whether the expression of the words 'or otherwise' in the 210th section of the Act would entail any serious inconvenience, or any inconvenience at all, on the charterment authorities. At the last moment, when it is too late for me either to put any question or submit any amendment, if I had a desire to do so, I have received a number of papers from a military depot on the Himalayas, which is not only not a charterment, but has never been declared to be a charterment, in fact has been declared not to be a charterment, all of which I have not been able to read in the short time at my disposal, but from which it will clearly be seen a good deal of friction has arisen in this depot from the desire of the Government to convert it into a charterment. Now, no sensible person in my humble opinion questions the permanency of these military establishments which make the severity of the charterment officer supreme. What I have to say does not depend at all upon those privileges which the Government has rightly reserved for its charterment authorities. The point which I wish to make out is this: under section 3 of the Act power is conferred on Local Governments to make any place a charterment. These, nevertheless, are conferred or will be vested in the charterment authority, which may in some instances be a committee, or, if a committee be not appointed, be a single person, such as the Commandant. In the case to which I have referred."

The Hon'ble Mr. SEENA: "I also is a point of order. I do not think the Hon'ble Member is in order in moving these amendments, which I understood he is doing."

The Vice-President: "I did not understand that the Hon'ble Member intended to move an amendment; but if it is his intention to do so, he is clearly out of order."

The Hon'ble Mr. MAMBA: "I implied at starting that it was not my intention to move any amendment. I moved only very briefly and very respectfully to submit these points for the consideration of His Excellency the Commander-in-Chief. May I proceed?"

The Vice-President: "You may proceed, but you will not be in order in moving amendments."

The Hon'ble Mr. MAMBA: "I have no desire to move any amendments at all. I simply wish to call attention to those facts which are deserving of consideration and which, I feel certain, will receive the consideration of His Excellency if they are brought to his notice."

"A considerable amount of private property has grown up in this place and friction has arisen from the desire to make this place a charterment. Well, now, the appeal will be made entirely to the justice of the Government and will be left entirely in the hands of the Government. What those people will look for, I presume, will be some sort of compensation. What those people will want 'or otherwise' after the word 'compensation' in section 25 introduced no unknown alternative. If, so it is, the compensation is left in the hands of Government, appeals for compensation will be made to the Government and decided by the Government, and it will probably create a good deal of anxiety if so."

"I simply submit this point for consideration."

The Hon'ble Mr. SEENA: "Mr. President, I think I ought to explain to Hon'ble Members that when there is a consolidation Bill, properly so called, before the Council, it is not the practice either of the Council, or of any other legislative assembly, that I am aware of, to introduce amendments or to
